

**THE INDEPENDENT  
BIKE SHOE BRAND**

FIRST DEGREE

It takes 360 degrees for a crank arm to go full circle. Yet it's the FIRST DEGREE that sets a bike in motion. That slight, initial movement of the pedal that embodies your commitment. It's your decision to drop in, to send it, to ride a new line, to get back on your bike, and to push your limits. At FIRST DEGREE, we're riding with you—and share your commitment. We amplify your comfort and performance so you can ride with confidence—while grinning ear to ear. Our shoes connect perfectly with your pedals, enabling you to move that FIRST DEGREE. And then keep on moving.
