

Atomic is one of the leading manufacturers of Wintersports equipment and part of the AMER Sports Corporation (Atomic, Salomon, Armada, Wilson, Suunto, Precor, Arc'teryx, Mavic and Peak Performance). To support our International Marketing Team in Altenmarkt im Pongau / Salzburg we are currently looking for a:

MOBILE APPLICATION MANAGER (m/f)

As App Manager for Atomic you will be in charge of running Atomic's communication in the mobile world as well as securing our position as the leading brand in connected skiing. This newly established position offers a unique opportunity to drive consumer engagement as well as playing an important role in product development at the forefront of the skiing industry. To be successful in this position you will need to have extensive knowledge in how to acquire and retain users as well as the development skills to constantly push the Atomic app to the next level.

YOUR DUTIES AND RESPONSIBILITIES:

- Responsible for ongoing development of system, UX design, implementation and maintenance
- Management of user database
- Project Management
- Content Creation
- Implementing and analyzing the given analytics tools/data
- Budget and KPI Management
- Communicate technical information to a non-technical audience
- Leading and facilitating training

SKILLS / REQUIREMENTS:

- Bachelor's degree in Information Technology, Engineering or in related fields preferred
- Minimum of 3 years of relevant technical work experience

- Deep understanding of service oriented software architecture and design and web service integration (SOAP, REST, JSON, XML, HTML)
- In-depth knowledge of IT concepts, strategies and methodologies and their application to business opportunities
- Knowledge of system design, development, implementation and user support principles and practices
- Demonstrated skills in developing automated business systems
- Experience with agile methodologies working side-by-side with Design and Product teams
- Content Creation and Database Management skills
- Experience with Information System troubleshooting
- Familiarity with Project Management principles and in preparing workflow analyses
- Highly developed oral and written communication skills as well as strong presentation skills
- Willingness to travel

If the scope of these responsibilities meets your expectations, please be welcome to apply [Online](#) with all usual application documents.
