

I am a passionate filmmaker, who is specialised in filming outdoors. As a ski-canyoning and climbingguide I am able to go almost everywhere. No matter if it's snow, rock, water or ice.

To get the very best out of the footage I shoot outdoors I am part of the www.LM-Media.at collective. In this team we have specialists for everything a cool video needs.

Here are some pictures of me doing my work behind the camera, or being in action myself.
