

TROYEAH films

Troyeah Films is a Munich based film production founded in 2014 by Christoph and Nicole Trojer. Before Troyeah Films we already gathered over 8 years experience in the sports and image film business.

We dedicate our company to producing successful, inspiring, high-quality films for our customers.

Whether it's an animation, an interview or portrait, an emotional image clip or a freaky spot to catch attention – we aim on creating the best for whichever need and target group.
