I'm a bit of a jack all trades. Or I guess a jack of some specific trades.

A bit about me: I grew up filming skateboarding in Canada, then went into web design for work, doing a lot of web/app stuff at a big agency for brands like Nissan, Infiniti, AT&T, Sunglass Hut, etc. I also did a lot of photoshop work in that time. Next I went back to film production, starting my own small studio in Canada with a friend I grew up skateboarding with. I've been doing that full time for the past 5 years, before relocating to Germany.

My strengths include Art Direction, Cinematography, **Post-Production:** *Editing, SFX, practical FX, grading, title design, motion graphics, animation, compositing, Sound Design*; Photography, Photoshop, Design, kickflips & really bad jokes.

I am currently looking for opportunities to collaborate. I am also available for freelance projects, travel, on-site contract work, and full-time creative work and content production.

Best,

James
