

As a passionate snowboarder born in 1987 I was stocked by shots I've got to see in different mags back in the days. In 2008 I started a carrear as a professional terrainparkbuilder, which also pushed me to buy my first own camera. Through a lot of shoots with friends and pros, all related to different actionsports, I earned my skills by trial&error as a autodidact. Meanwhile I scored some nice prints in different Mags and jobs for well-known Companys in the actionsports-industry.
