Hey there,

My name is Miha Matavž and I am a new generation freelance photographer born in 1990s in Slovenia. Photography has been a great passion of mine ever since high school and I am very grateful and happy that today I am able to say it's become my job and a hobby at the same time. Working with athletes is always something special which I really enjoy doing. Capturing them from my point of view in action-packed moments in time – while they overcome their boundaries time and time again to show the rest of the world what they are capable of – is a real honour for me!

I specialise in **action – extreme sports, event – reportage** and **portrait** photography. For further information regarding my work, feel free to check out my web page portfolio with references at www.mihamatavz.com and my blog at www.mihamatavz.com/blog with my latest published projects.

I look forward to working with you! ;)

Best wishes,
Miha Matavž
