

Since 2011 I am a freelance producer, filmer and editor mainly in the field of outdoor, action sports and tourism.

After my education at the SAE Filmschool in Munich I moved to Innsbruck.

Since then I have been working as an independent filmmaker.

The following years my focus was on the creation of videos in the field of action sports.

The possibility to travel to other countries like Norway, USA, Switzerland, France and Italy through my work awakened my enthusiasm for the job and helped me to develop my personal filming style.

I also had the privilege to shoot with well-known brands like Völkl, RedBull, Atomic, Dakine or Nordica and thus significantly expand my knowledge as a filmmaker.

Over the years of experience as a self-employed filmmaker, creativity, which is expressed in particular through the individual style of the filmmaker, has become very important to me.

In order to be able to pursue this without restrictions, I co-founded Pan Pictures GbR this year.

We produce image as well as sports, tourism and event videos.

In the design and the form of production we stand out extremely and want to convince with quality.

I am a passionate skier myself and have spent half my life in the mountains.

Action sports, especially in the outdoor area, is my specialty, where I like to spend my time the most.

At www.pan-pictures.de you can find a few references. Feel free to have a look!
